

Coverleg items are made of Green Soul italian fabric. For the first time in the stretch fabrics market Coverleg uses not only recycled nylon but also recycled spandex, so that **100% fabric is recycled**. The recycled **nylon and spandex** yarns are extruded from **industrial waste** and knitted to deliver the same quality and performance of virgin yarns .This process is **guaranteed by SCS and certified by GRS** (Global recycle standard) number CU831661GRS-01.2014.
